

Not Just Art is a new initiative of Youth4Jobs Foundation. Youth4Jobs runs 22 job placement and skilling centers for youth with disabilities in 12 Indian states. It also organizes programs for corporations to sensitize and motivate them to employ people with disabilities.

Youth4Jobs was the winner of the 2017 National Award for Empowerment of Persons with Disabilities, presented by the President of India.

Not Just Art was created by Youth4Jobs founder Meera Shenoy after having conversations with parents of youth with disabilities who were active artists.

# NOT JUST ART

NURTURING ARTISTRY  
OF ALL ABILITIES

# A digital platform to promote the works of artists with disabilities

## OUR WORK:

### Fine Art Sales

We help artists with disabilities develop sustainable livelihoods in art, turning their passions into successful careers. To do this, the NJA e-store offers original artwork from each artist in a variety of media and formats - perfect for any home or office.

### Artist Advocacy

Through our network of disability and arts organizations, we advocate for our artists on an international scale. We promote their artwork and exhibits through our website and social media, and represent them at national events with stakeholders in the disability and art worlds. We also mentor artists and connect them with much-needed professional resources.

## About NJA

Not Just Art was created to support visual artists with disabilities in India and promote their work to a global audience of art lovers, collectors, and galleries. We aim to showcase their talents using social media and create an inclusive global art community.

## Art Workshops

We believe art is a valuable therapeutic practice, allowing artists to express themselves in new ways. This is why we partner with local schools to conduct art workshops for youth with disabilities. By offering no-cost, basic art instruction to children with no prior art experience, we equip them with a new method of telling their unique life stories.
